

# Retail Development Projects

Cuoco & Cormier Engineering Associates, Inc. has prepared site designs for a variety of retail projects. The following is a sampling of recent projects:

## **Hannaford Supermarket – Lowell, Massachusetts**

C&C prepared a comprehensive site design which enabled our client to revive an abandoned commercial site and construct a premier supermarket at this location. This project is another example of successful Brownfield's Re-development and community re-vitalization.

## **Barnes & Noble Booksellers – Nashua, New Hampshire**

C&C developed a complete site plan for an open concept bookstore and café. The design enabled our client to maximize curb appeal while also fully utilizing the space available on site. Limited site access and the need to maximize on site parking posed interesting design challenges.

## **Applebee's Restaurant – Tewksbury, Massachusetts**

C&C developed a comprehensive site and utility design for this restaurant. The project was developed as a subdivision within a larger commercial development. C&C coordinated the entire permitting process to enable our client to occupy this location.

## **Triangle Credit Union – Bedford, New Hampshire**

C&C has prepared full site design for two Triangle Credit Union locations. The development of effective traffic patterns and pedestrian access have been critical elements at each location in order to promote safe and efficient drive thru and site access.

### **Nashua, NH:**

74 Northeastern Blvd - Unit 10A  
Nashua, NH 03062  
(603) 882-1812

### **Tewksbury, MA:**

170 Main Street, Unit 112  
Tewksbury, MA 01876  
(978) 851-9807

### **Boscawen, NH:**

166 King Street  
Boscawen, NH 03303  
(603) 796-6000
